ENGINEERING GEOLOGY

Contents Volume 40 (1995)

Research papers

Deterministic versus probabilistic seismic hazard analysis for critical structures
E.L. Krinitzsky 1

Questions on the validity and utility of *b*-values: an example from the Central Mississippi Valley
D.H. Speidel, P.H. Mattson 9

Material property changes in granitic rock during long-term immersion in hot water
K. Suzuki, M. Oda, T. Kuwahara, K. Hirama 29

Significance of discontinuity surveying in motorway alignment selection, southern Turkey
I. Yilmazer 41

Particle packing in loess deposits and the problem of structure collapse and hydroconsolidation
T.A. Dijkstra, I.J. Smalley, C.D.F. Rogers 49

Anisotropic features of geometry and permeability in fractured rock masses
X. Zhang, D.J. Sanderson 65

Engineering geological characterization of coal mine waste material and an evaluation in the context of back-analysis of spoil pile instabilities in a strip mine, SW Turkey
R. Ulusay, F. Arıkan, M.F. Yoleri, D. Çağlan 77

A critical overview of the geotechnical studies at the Na'ur Landslide No. 4 in Jordan: Causes and measures
A.S. Al-Homoud, S.A. Taqieddin, A.I.H. Malkawi, E. Salameh, A.B. Tal, S. Saket, M.I. Sadoon 103

Opinion section

The adobe reaction and the use of loess mud in construction
C.D.F. Rogers, I.J. Smalley 137

Research papers

Analyzing shallow faulting at a site in the Wasatch fault zone, Utah, USA, by integrating seismic, gravity, magnetic, and trench data
A.K. Benson, N.B. Mustoe 139

An evaluation of fluidized bed combustor ash as a source of alkalinity to treat toxic rock materials
J.J. Renton, H.E. Brown III 157

Engineering geological characterization of low strength anisotropic rocks in the Himalayan region for assessment of tunnel support
R. Bhasin, N. Barton, E. Grimstad, P. Chryssanthakis 169

Examination of microstructural features of Norwegian cataclastic rocks and their use for predicting alkali-reactivity in concrete
B.J. Wigum 195

Mechanistic approach to the shear strength behaviour of allophanic soils
S.M. Rao 215

Geological and geotechnical properties of the "Terres Noires" in southeastern France: Weathering, erosion, solid transport and instability
P. Antoine, A. Giraud, M. Meunier, T. Van Asch 223

Engineering geologic factors in the design of a large underground structure in a tuff sequence in Cappadocia
I. Yilmazer 235

Engineering–geological mapping of tropical soils for land-use planning and geotechnical purposes: A case study from Jamaica, West Indies
R.J. Maharaj 243

Uniaxial strength testing of non-welded Calico Hills tuff, Yucca Mountain, Nevada
R.A. Schultz, Q. Li 287
